

MEAL *Inspirations* FOR AGED CARE

RE:FRESH SAUCES

SAUCES

Sauce is an integral part of a meal in aged care. It helps add flavour and moisture as well as achieve variety on a menu. Combining different sauces and gravies together will add interesting new flavour twists, help adjust flavour profile: stronger or milder if required, or even manage costs.

See inside for sauce mix ideas as well as our full range of sauces for your kitchens.
